

HIGH PERFORMANCE TRAINING

Chamber Choir Ireland

The success and repute of the Chamber Choir Ireland is testament to the talent of its singers and conductors, and the dedication and vision they apply to the pursuit of their artistic goals. In a very short time span, this ensemble has impressed audiences at home and abroad and will continue to do so in the future.

Such accomplishments are not built on ability and application alone, and the hallmarks of this choir are a love of tradition and a willingness to commission and perform exciting new works by contemporary composers. The result is a repertoire that can be comforting or challenging, but always performed with a passion and commitment that is cherished afterwards in the memory of listeners.

By its example, the Chamber Choir shows us that success in any field means making the utmost of whatever gifts we possess. Like classically trained, forward-looking artists, we are at our best when we surpass our limitations by deepening our skills and broadening our scope: only by learning and developing can we make our working lives more meaningful, and gain due recognition from those we work with.

As a provider of training to business, administration, and the professions, High Performance Training is inspired by, and proud to sponsor, the Chamber Choir Ireland.
